

CertificationsBuzz Review: How to pass Huawei H31-331 Exam?

For more Info: <https://www.certificationsbuzz.com/H31-331.html>

Are you looking for a contemporary source of study for the preparation of your **H31-331** Huawei Certified Network Professional-Building Carrier OTN Transmission Network Exam exam? Or do you aim to pass your Huawei Certified Network Professional-Building Carrier OTN Transmission Network Exam H31-331 exam in a single attempt? Huawei H31-331 exam questions material is exactly what you require to ace your **Huawei Certified Network Professional-Building Carrier OTN Transmission Network Exam H31-331** certification exam in just single attempt. Our meticulous H31-331 exam questions material is the result of untiring efforts of the local and global subject matter experts who are not only on the top of their fields but are also well versed with the requirements and trends of H31-331 exam. Furthermore, the seasoned professionals from across the globe identify and acknowledge the Huawei Certified Network Professional-Building Carrier OTN Transmission Network Exam H31-331 exam questions material as the most helpful study source.

Try These Huawei H31-331 Certification Exam Questions Materials:

Huawei H31-331 Exam Questions material is specially formulated to make the learning process easy for you. Our team at (CertificationsBuzz) leaves no stone unturned when it comes to finding new and interesting ways to present information in our study sources. Our H31-331 exam Questions material is available in two easy formats:

1- PDF File

2- Practice Exam Software.

Huawei H31-331 Exam Questions" with 100% Money Back Guarantee:

We highly value the trust that the H31-331 test takers put in our products. This is why, we offer a 100% money back guarantee, and along with a promise that our H31-331 Exam Questions material will help you pass your **H31-331 Huawei Certified Network Professional-Building Carrier OTN Transmission Network Exam exam** is just one attempt. And if for any reason, we fail to fulfill our commitment so you may ask for the refund.

CertificationsBuzz Secure Policy:

We believe on customer value and their accounts information. In todays modern world hacker can hack account information of any customer to enjoy the amount of our customer. We use SSL 128 bit algorithm to secure it and our expert team handle it **24/7**. No one can steal our data because it is encrypted by our experts.

Version: 8.2

Question: 1

In the NG WDM network, Ethernet service degradation occurs.
Which of the following are possible reasons? (multiple choice)

- A. Large amount of traffic and insufficient bandwidth configuration
- B. Ample bandwidth and large bursts of business
- C. When the traffic is too large, the peer device does not have time to respond.
- D. The port attribute does not match the peer device.
- E. Line fiber failure
- F. Physical layer failure

Answer: A, B, C, D, F

Question: 2

If you want to establish a GE-level service path on the NMS, which of the following is not required?

- A. Complete Och path
- B. Complete ODU1 path
- C. Complete OMS path
- D. Complete OSC path

Answer: D

Question: 3

Which of the following does not belong to the transmission characteristics of optical communication?

- A. Loss
- B. Temperature
- C. Nonlinear
- D. Dispersion

Answer: B

Question: 4

Which of the following transmission equipment units/interfaces provides the function of connecting the

customer side equipment?

- A. Line unit / NNI interface
- B. Main control unit
- C. Branch unit / UNI interface
- D. Cross/exchange unit

Answer: C

Question: 5

Which layer of the public telecommunications network is the transport network at the level?

- A. The bottom layer
- B. Secondary bottom layer
- C. Middle layer
- D. The highest level

Answer: A

Question: 6

The TMX board is a type of tributary board that supports 10G rate signal access on the customer side.

- A. True
- B. False

Answer: B

Question: 7

Which of the following statements about insertion loss is wrong?

- A. Each channel insertion loss is the loss of output optical power after each channel optical signal passes through the corresponding channel of the optical multiplexing device.
- B. Insertion loss is an important performance indicator of a single physical channel of a splitter or combiner
- C. In the insertion loss test, the insertion loss values of all channels of the splitter should be exactly equal, so you only need to test one of the channels.
- D. The reason why the number of MR2 single-board cascades cannot be too large is that there is a punch-through insertion loss.

Answer: C

Question: 8

Which of the following layers is the overhead of the segment monitoring overhead SM?

- A. OPUK
- B. ODUK
- C. OTUK
- D. OMS

Answer: C

Question: 9

For a certain optical layer scheduling board (such as WSD9/WSM9/WSMD4), you can set the optical wavelength routing in the board separately.

- A. True
- B. False

Answer: A

Question: 10

Which of the following alarms triggers optical line protection switching in the optical line protection of the NG WDM 40G systems?

- A. R_LOS
- B. MUT_LOS
- C. OTU3_LOF
- D. OTU3_PM_DEG

Answer: B

Question: 11

The split ratio of the MON port to the OUT port is 1:99. How much dB is the MON power lower than the OUT port?

Which of the following is correct?

- A. 10dB
- B. 15dB
- C. 20dB
- D. 25dB

Answer: C

Question: 12

For WDM devices, the smaller the channel spacing, the smaller the frequency offset allowed by the center frequency.

- A. True
- B. False

Answer: A

Question: 13

Which of the following conditions does not trigger the customer side 1+1 protection automatic switching?

- A. OTUK_TIM.
- B. Hard reset of the board.
- C. OSC_LOS
- D. ODUK_PM_LCK

Answer: C

Question: 14

Monochromatic light does not produce dispersion.

- A. True
- B. False

Answer: B

Question: 15

The OptiX OSN 8800 electrical layer cross supports GE, ANY, ODU1, and ODU2 service scheduling. There are two modes: distributed crossover and centralized crossover.

- A. True
- B. False

Answer: B
