

Courses - flows originating from there

Notes:

Main view on entering and actions and flows that start from there. The emphasis is on integrating My Courses and TextBooks - with links to uBook functionality mostly taking place modally.

Anne Murdoch annemurdo@umich.edu (primary)
 Frances McDermott fmcderm@umich.edu (secondary)
 Luis Aparicio laparic@umich.edu (secondary)

Catalog description

The fundamental diagnostic and treatment features of maxillofacial, developmental, and acquired deformities treated by orthognathic surgery are presented by faculty from oral and maxillofacial surgery and orthodontics. Preoperative and postoperative orthodontics as well as the spectrum of corrective surgical procedures are also presented. Correction of occlusal dysfunction and skeletal disharmony in both jaws in all three planes of space is included.

Site description

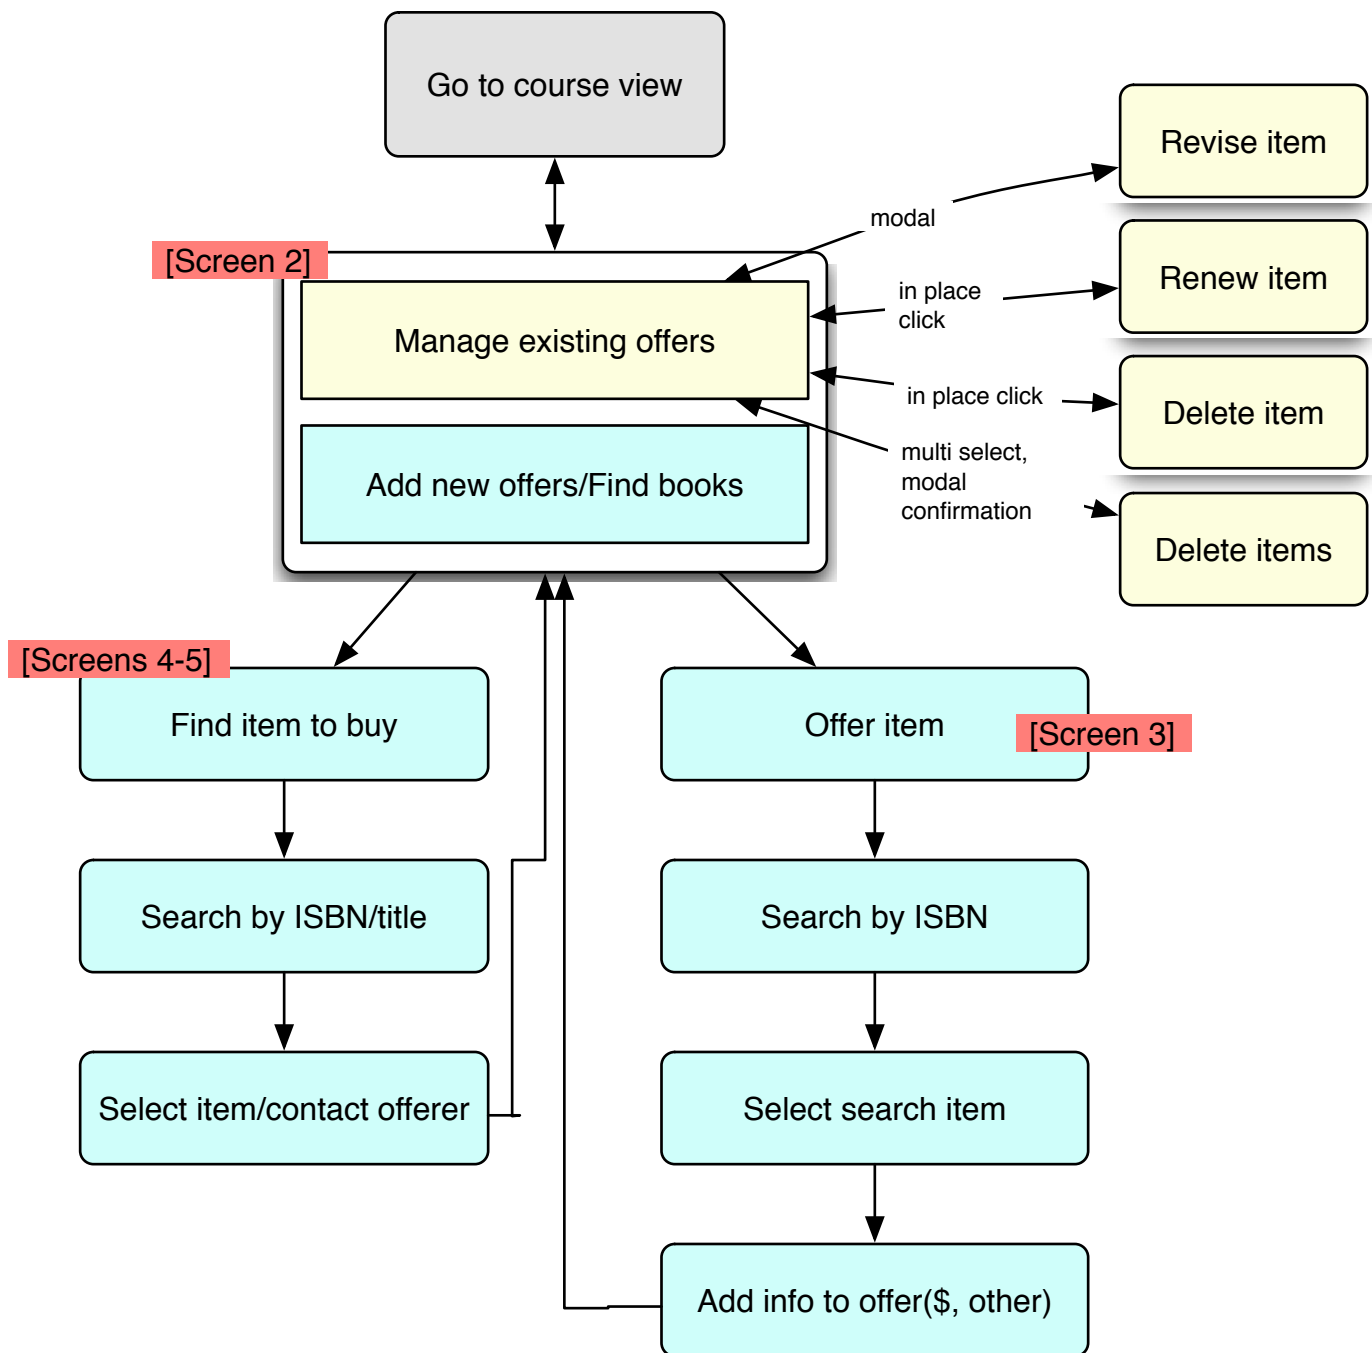

See site resources for handouts. We will also be collecting your work via Assignments.

Notes:

Hard to cram in all the functionality needed in this list. Not happy with the way "Go to course" and "See info" is made. There are a total of 4 possible actions per item (Books, Info, mailto, link to site) - need to work on alternate designs

Also not happy with control to navigate to the **Textbooks** view.

Textbooks - flows originating from there

Notes:

The user has chosen to go to the Book view. This view catalogs past user offerings, offers links to the uBook like functionality (offer to sell, search to by, manage offerings)

Some coffee stains....

Done

Notes:

User has clicked "I want to sell" and filled out the ISBN number. the exact match has been returned and the controls (price, remarks) presented

Since the workflows here are somewhat complex - instead of presenting them in a modal dialog they are included inline.

The **Price help?** link will just show inline a price range for which the item is being sold. In the last version of uBook it showed an overly complicated listing of current prices (my fault).
