If site has no sections/groups as defined under Section Info, then

1. display "All Sections/Groups" outside of pull-down menu
2. "Download Responses" button behaves same as current "Download All" link - in this case, downloads all file submissions for site as .zip file.

Other changes:

- Remove colon ":" from View and Search
- Swap placement of Highest Submission pull-down and All Sections/Groups
- Add "for" between Highest Submission pull-down and All Sections/Groups
- Line up Highest Submission pull-down with search box
- Add pipe before Download button

"All Sections/Groups" should be replaced with "Entire Site"

If site has sections/groups as defined under Section Info, then

1. display "All Sections/Groups" as an option within pull-down menu (this is what's existing)
2. Clicking "Download Displayed Responses" behaves the same as clicking existing "Download All" link - downloads .zip file for selected displayed view (e.g., if "Section 2" is selected, then download action will download all student file submissions for Section 2 as .zip file)

Other changes:

- Remove colon ":" from View and Search
- Swap placement of Highest Submission pull-down and All Sections/Groups pull-down
- Add "for" between Highest Submission pull-down and All Sections/Groups
- Line up Highest Submission pull-down with search box
- Add pipe before "Download Displayed Responses" button
