

Problems:

- 1) I would have expected the student to be able to see GB4 and GB6 items. These two items never become available to the students throughout the tests done.
- 2) Changing the due date to 2/9/13 for GB1 affected GB2. GB1 is no longer available to the student, which is correct, but GB2 should still be available.
- 3) Changed setting in GB3 to release to students. This affected GB1 and GB2, both of which are now available to students. GB1 should not have been.
- 4) GB5 is now available to the student, which is correct. Problems with GB1, GB4 and GB6 persist.
- 5) GB7 is now available to the student, which is correct. Problems with GB1, GB4 and GB6 persist.
- 6) GB8 should no longer be available to the student, since the score needs to be less than 25 and score entered is 25. Problems with GB1, GB4 and GB6 persist.
- 7) Verified student is not able to see GB9 if the score is not greater than 15. Problems with GB1, GB4, GB6 and GB8 persist.
- 8) GB9 is now available to the student with a score of 15 even though it should only display if the score is greater than 15. Problems with GB1, GB4, GB6 and GB8 persist.
